

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
1	African bush (savannah) elephant, young adult	<i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	Lower jaw, showing partially worn, unerupted and developing molar teeth	Tsavo, Kenya, died naturally in the wild during prolonged drought of late 1960s	Glass display C3	
2	African bush (savannah) elephant	<i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	Intact permanent premolar or molar tooth, mostly unerupted, anterior slightly worn	Tsavo, Kenya, died naturally in the wild during prolonged drought of late 1960s	Glass display C3	
3	African bush (savannah) elephant	<i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	Unerupted permanent set molar/premolar tooth broken in half, mostly unerupted, anterior slightly worn	Tsavo, Kenya, died naturally in the wild during prolonged drought of late 1960s	Glass display C3	
4	African bush (savannah) elephant	<i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	Erupted and very slightly worn permanent set molar/premolar tooth broken	Tsavo, Kenya, died naturally in the wild during prolonged drought of late 1960s	Glass display C3	
5	African bush (savannah) elephant	<i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	Unerupted permanent set molar/premolar tooth broken	Tsavo, Kenya, died naturally in the wild during prolonged drought of late 1960s	Glass Storage D	
6	African bush (savannah) elephant, juvenile	<i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	Three milk-set premolar teeth	Tsavo, Kenya, died naturally in the wild during prolonged drought of late 1960s	Glass display C3	
7	African bush (savannah) elephant, juvenile	<i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	Small unworn segment of molar tooth	Found on beach, Malindi, Kenya Feb. 1974	Bates	
8	African bush (savannah) elephant	<i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	Larger unworn segments of molar tooth	Found Malindi beach, Kenya Feb. 1974	Bates	
9	African bush (savannah) elephant	<i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	Skin of ?Rt fore foot showing four toe nails, with healed injury	Tsavo, Kenya 1974	Sole of foot, ear skin and thicker skin with a few hairs Glass Display C3	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
10	Elephant ?African bush (savannah)	? <i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	Skin from ear and from body (with sparse hair)		Glass Display C3	
11	Elephant	<i>Loxodonta or Elephas</i>	Mammalia Eutheria Proboscidea	3 billiard balls cut diametrically from U. 2nd incisor showing pulp cavities and helical dentinal tubules, total 530 g	Antique, probably c. 1900, acquired Albertville, Savoie, France 1973.	1 ball Glass Display C3, 2 in B2	
12	African bush (savannah) elephant	<i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	c. 430 plain beads cut from U. 2nd incisor, in 3 strings, graded sizes, total c. 200 g	Central Tanzania 1982	1 string of beads Glass Display B2, other Bates	
13	African bush (savannah) elephant	<i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	Curved pendant cut from U. 2nd incisor showing anatomical structure, 18 g	Central Tanzania 1982	Glass Display C3	
14	African bush (savannah) elephant	<i>Loxodonta africana</i>	Mammalia Eutheria Proboscidea	Square pendant cut from U. 2nd incisor without visible anatomical structure, 6 g	Central Tanzania 1982	Bates	
15	?Elephant	<i>Loxodonta or Elephas</i>	Mammalia Eutheria Proboscidea	Tip of ?elephant U. 2nd incisor, worn on one side	Antique	Bates	
16	Asian elephant	<i>Elephas maximus</i>	Mammalia Eutheria Proboscidea	Right hind foot + skin, sole & toenails, made into trash basket	Gift from Lady K. Lake (1932-2017)	Glass Display C3	
380	Asian elephant, probably young ♂	<i>Elephas maximus</i>	Mammalia Eutheria Proboscidea	U. 2nd incisor 37 cm long with large pulp cavity	Collected E. Asia late 19th C by William L. James; donated 2018 by his descendants	Glass Display C3	
17	Rock hyrax, BM 1.7 kg	<i>Procavia capensis</i>	Mammalia Eutheria Hyracoidea	Skull+atlas vertebra <i>in situ</i> , lower jaw	South Africa 1995	Glass Display D3	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
18	Rock hyrax	<i>Procavia capensis</i>	Mammalia Eutheria Hyracoidea	Lower jaw fragment	South Africa 1995	Bates	
19	Yellow-spotted hyrax	<i>Heterohyrax brucei</i>	Mammalia Eutheria Hyracoidea	Lower jaw fragment with 4 comb-like incisors	South Africa 1995	Bates	
20	Horse, small adult	<i>Equus caballus</i>	Mammalia Eutheria Perissodactyla Equidae	Mounted Rt. foreleg, olecranon process of ulna (= 'elbow') broken off	University of Pennsylvania, Philadelphia 1978	Glass display B4 lower leg abd hoof; ulna Glass storage D	
21	Horse BM c. 444 kg	<i>Equus caballus</i>	Mammalia Eutheria Perissodactyla Equidae	Skull (braincase damaged) +lower jaw+ hyoids	Shot in abattoir, Buckinghamshire, UK	Glass display A3 skull & jaws; tongue bones Glass storage D Ungulate box	
22	Horse, mature adult	<i>Equus caballus</i>	Mammalia Eutheria Perissodactyla Equidae	10 intact + 2 sectioned molar teeth	University of Pennsylvania, Philadelphia 1978	Glass display A3	
462	Horse, mature adult	<i>Equus caballus</i>	Mammalia Eutheria Perissodactyla Equidae	6th cervical vertebra	Probably Ireland mid-20th century, slightly carved, perhaps painted as 'angel' religious image. Donated by Richard Vernon	Glass storage D Ungulates	
463	Donkey (?small horse), very elderly	<i>Equus asinus</i>	Mammalia Eutheria Perissodactyla Equidae	cervical vertebra, probably 3rd or 4th, very mineral depleted	Chewed by rodents etc. Donated by Richard Vernon	Glass storage D Ungulates	
402	Equid, young adult	<i>Equus caballus</i>	Mammalia Eutheria Perissodactyla Equidae	5 intact molar teeth with open roots	Univ. Pennsylvania, Philadelphia 1978	Glass storage D Ungulates	
23	Donkey, very elderly, BM 175 kg	<i>Equus asinus</i>	Mammalia Eutheria Perissodactyla Equidae	Skull+lower jaw, teeth worn & maloccluded	Donkey Sanctuary, Seaton, Dorset	Glass display A3	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
24	Horse, mature adult	<i>Equus caballus</i>	Mammalia Eutheria Perissodactyla Equidae	Partly broken molar tooth		Glass storage D Ungulates	
26	Northern white rhinoceros, mature adult	<i>Ceratotherium (simum) cottoni</i>	Mammalia Eutheria Perissodactyla Rhinocerotidae	Skull+lower jaw with 19 molar teeth in situ, U. left 2nd+all 4 1st premolars & horn lost post mortem	Nr. Jinja, Uganda c. 1950 collected by Dr Margaret E. Varley (née Brown) 1918-2009. Displayed outside in S. England c. 1955-2017 so damaged by rain and sunlight	Foyer display box	
27	Southern white rhinoceros juvenile ♀ BM c. 800 kg	<i>Ceratotherium (simum) simum</i>	Mammalia Eutheria Perissodactyla Rhinocerotidae	Skull + small horn, lower jaw (R half in 4 sections, teeth removed), hyoid bones, atlas vertebra, knee cap, small bones, tail with hair	ZSL Whipsnade zoo 30 Jan. 1990 2 bullets in cranium	Glass display A3 skull Lt jaw; B1 horn; tail Oak 3rd Shelf; other Glass storage D Ungulates	
28	Black rhino, mature adult	<i>Diceros bicornis</i>	Mammalia Eutheria Perissodactyla Rhinocerotidae	Molar tooth, very worn, roots nearly closed	Tsavo Kenya Africa (drought early 1970s)	Glass display A3	
29	Black rhino, adult	<i>Diceros bicornis</i>	Mammalia Eutheria Perissodactyla Rhinocerotidae	Premolar tooth, worn, roots still open	Tsavo Kenya Africa (drought early 1970s)	Glass display A3	
30	Rhino?		Mammalia Eutheria Perissodactyla Rhinocerotidae	Molar tooth, very worn, roots closed	Tsavo Kenya Africa (drought early 1970s)	Glass storage D Ungulates	
31	Collared Peccary	<i>Pecari (Tayassu) tajacu</i>	Mammalia Eutheria Artiodactyla Suidae	Skull+lower jaw, all molars intact, canines & incisors chipped	Costa Rica 1974	Glass display B3 skull and jaws	
32	Collared Peccary old ♀ BM 27 kg	<i>Pecari (Tayassu) tajacu</i>	Mammalia Eutheria Artiodactyla Suidae	Large bundle of bristles	Whipsnade zoo, Bedfordshire 18/8/1987	Glass display B4	
33	Wild boar old ♀ BM 80 kg	<i>Sus scrofa</i>	Mammalia Eutheria Artiodactyla Suidae	Skull+ L. jaws (cranium & jaw damaged), loose bones, tail, bundle of bristles	Regent's Park zoo, London shot 11/10/1984	Glass display A1 skull and jaws, loose tusk; oak with bristles; other Glass storage D Ungulates	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
34	Domestic pig, young adult	<i>Sus scrofa</i>	Mammalia Eutheria Artiodactyla Suidae	3rd molar & premolar teeth		Bates	
401	Domestic pig, immature probably ♂	<i>Sus scrofa</i>	Mammalia Eutheria Artiodactyla Suidae	Skull+lower jaws, some teeth missing	England 2018	Glass display C1 skull and jaws	
403	Domestic pig	<i>Sus scrofa</i>	Mammalia Eutheria Artiodactyla Suidae	bisected skull, atlas & axis vertebrae	USA	Glass storage D Ungulates	
25	Elderly domestic pig	<i>Sus scrofa</i>	Mammalia Eutheria Artiodactyla Suidae	Very worn upper 2nd molar tooth, 4 closed roots		Bates	
35	Mature domestic pig or wild boar	<i>Sus scrofa</i>	Mammalia Eutheria Artiodactyla Suidae	Very worn premolar tooth, 3 closed roots		Bates	
36	Common warthog, mature adult	<i>Phacochoerus africanus</i>	Mammalia Eutheria Artiodactyla Suidae	Upper & lower enlarged curved canine teeth, intact	found Kenya 1974	Glass display B3 left U and L tusks; Rt tusks Bates	
37	Common warthog weaned juvenile	<i>Phacochoerus africanus</i>	Mammalia Eutheria Artiodactyla Suidae	R. lower jaw + broken part of upper jaw, with teeth erupting	found Kenya 1974	Glass display B3 Rt lower jaw; other Bates	
38	2-humped camel adult ♀, body mass 650 kg	<i>Camelus bactrianus</i>	Mammalia Eutheria Artiodactyla Camelidae	Skull+lower jaw, hyoid bones, decayed molar tooth; rt. radius/ulna; tip of tail; body skin with hair, dried; loose hair from humps; tip of posterior hump with 2 other strips of skin salted.	Whipsnade zoo, Bedfordshire August 1982	Glass B3 skull and jaws; skin/hair pieces Oak and Bates; rt. radius/ulna Glass Storage A; other Glass storage D	
39	2-humped camel, age 78 days, BM 104 kg	<i>Camelus bactrianus</i>	Mammalia Eutheria Artiodactyla Camelidae	Skull & lower jaw bisected, hyoids, erupting teeth; incomplete hind limb bones+open epiphyses labelled	Whipsnade zoo, Bedfordshire 1982	Skull Glass Display B4; other Glass storage D Ungulates	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
40	White-tailed deer, mature stag c. 5 y old	<i>Odocoileus virginianus</i>	Mammalia Eutheria Artiodactyla Cervidae	Mounted head and neck, with hunting licence tag fixed on Rt. antler	Collected & prepared in Michigan, USA under 1946 Michigan deer hunting licence DD 6999, bought at house clearance sale near Ann Arbor Mich. 1975	Basement storage	
41	White-tailed deer, young adult	<i>Odocoileus virginianus</i>	Mammalia Eutheria Artiodactyla Cervidae	Rt. lower jaw, with all incisor & molar teeth; some post mortem damage to bone.	Eastern USA	Cuboard 2 Ungulates	
42	? White-tailed deer, adult	? <i>Odocoileus virginianus</i>	Mammalia Eutheria Artiodactyla Cervidae	Pre-molar tooth, partly worn		Bates	
43	Red deer, young adult	<i>Cervus elaphus</i>	Mammalia Eutheria Artiodactyla Cervidae	Left lower jaw	found Scotland	Glass display A1	
47	Red deer	<i>Cervus elaphus</i>	Mammalia Eutheria Artiodactyla Cervidae	Antler shed from young stag	Found Grampian mountains, Scotland	Glass display A1	
391	Red deer, adults ♂	<i>Cervus elaphus</i>	Mammalia Eutheria Artiodactyla Cervidae	3 antlers each with 1 tine (2 shed, 1 broken through bone); 1 vestigial antler; 2 broken and chewed by rodents etc.	Wytham Wood, Oxfordshire, England	Glass storage D Ungulates	
44	? Fallow deer (or reindeer)	<i>Dama dama</i>	Mammalia Eutheria Artiodactyla Cervidae	Base of shed antler with tine	found Scotland	Bates	
67	Very large cervid ? Irish Elk		Mammalia Eutheria Artiodactyla Cervidae	Base of shed antler	Found UK	Glass Display B3	
384	Roe deer mature ♂	<i>Capreolus capreolus</i>	Mammalia Eutheria Artiodactyla Cervidae	Two-pronged antlers, intact & attached to sawn-off frontal bones	Wytham wood, Oxfordshire, England #37 shot.	Glass display B3	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
385	Roe deer young adult ♂	<i>Capreolus capreolus</i>	Mammalia Eutheria Artiodactyla Cervidae	Antlers, bone only attached to cranium with ear bullae & occiput	Wytham wood, Oxfordshire, England probably shot.	Glass storage D ungulates	
216	Roe deer elderly ♀ BM 19 kg	<i>Capreolus capreolus</i>	Mammalia Eutheria Artiodactyla Cervidae	Skin with fur from neck & from upper face with both ears, desiccated & preserved with salt; skull & jaws, some loose incisor teeth; first 5 cervical vertebrae	Found dead but uninjured in garden at Iffley, Oxford 13 March 2025; molar teeth very worn and adipose tissue depleted, so may have starved; probably from wild herd living in nearby meadows	Glass display B3 Skull and jaws; B4 cervical vertebrae, skin & ears	
85	Fallow deer	<i>Dama dama</i>	Mammalia Eutheria Artiodactyla Cervidae	Incisor teeth lower jaw	Found dead but uninjured in garden at Iffley, Oxford 13 March 2025; molar teeth very worn and adipose tissue depleted, so may have starved; probably from wild herd living in nearby meadows	Bates	
386	Fallow deer young ♂	<i>Dama dama</i>	Mammalia Eutheria Artiodactyla Cervidae	One-pronged antlers intact & attached to sawn-off frontal bones	Wytham wood, Oxfordshire, England #90 shot	Glass storage D ungulates	
387	Fallow deer yearling ♂	<i>Dama dama</i>	Mammalia Eutheria Artiodactyla Cervidae	One-pronged antlers intact & attached to sawn-off frontal bones	Wytham Wood, Oxfordshire, England #81 shot 10/11/90	Oak Check	
390	Fallow deer mature adult	<i>Dama dama</i>	Mammalia Eutheria Artiodactyla Cervidae	Scapula, humerus, 2 tibiae, sternum, 4 vertebrae, metatarsal/carpal	Wytham Wood, Oxfordshire, England Feb. 1980 probably found decayed, bones chewed by rodents etc.	Glass storage D	
395	Fallow deer, 2 mature adults, 1 ♂ with antlers sawn off, 1 ♀	<i>Dama dama</i>	Mammalia Eutheria Artiodactyla Cervidae	Skulls + all U. molar teeth, antlers sawn off ♂	Wytham Wood, Oxfordshire, England, probably shot	Glass storage D	
45	Svalbard reindeer	<i>Rangifer tarandus platyrhynchus</i>	Mammalia Eutheria Artiodactyla Cervidae	Immature antlers, mostly pairs, collected from harvested specimens	In or near Adventdalen, Svalbard, Dec. 1989	Oak 2nd shelf	
46	Svalbard reindeer mature ♂	<i>Rangifer tarandus platyrhynchus</i>	Mammalia Eutheria Artiodactyla Cervidae	Large antler sawn in half, found abscised and frozen on tundra	Helveticadalen, Svalbard, 14 July 1990	Glass display A1	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
48	Svalbard reindeer	<i>Rangifer tarandus platyrhynchus</i>	Mammalia Eutheria Artiodactyla Cervidae	5 Antlers cut from 3 adults, 2 pairs labelled L & Rt, 1 Rt.	In or near Adventdalen, Svalbard, Dec. 1989	Oak 2nd shelf : pair lose antlers, 12 L & R Glass storage D Ungulates	
49	Svalbard reindeer	<i>Rangifer tarandus platyrhynchus</i>	Mammalia Eutheria Artiodactyla Cervidae	Skull +1 antler sawn off, 1 vestigial with guard hair, from harvested specimen	In or near Adventdalen, Svalbard, Dec. 1989	Oak 2nd shelf with 1 antler and Glass storage D Ungulates	
50	Svalbard reindeer mature adult ♂	<i>Rangifer tarandus platyrhynchus</i>	Mammalia Eutheria Artiodactyla Cervidae	Skull , both antlers sawn off, sutures well developed, molar teeth roots closed; from harvested specimen	In or near Adventdalen, Svalbard, Dec. 1989	Oak 2nd shelf	
51	Svalbard reindeer ♀ BM 71 kg	<i>Rangifer tarandus platyrhynchus</i>	Mammalia Eutheria Artiodactyla Cervidae	Skull, L. antler sawn off, Rt. Antler vestigial; Rt. 4th upper molar rotated & deformed, Rt. ear capsule deformed; all tongue bones, from harvested specimen	In or near Adventdalen, Svalbard, shot 6 Dec. 1989	Oak 2nd shelf	
52	Svalbard reindeer	<i>Rangifer tarandus platyrhynchus</i>	Mammalia Eutheria Artiodactyla Cervidae	Guard hairs and underfur winter	In or near Adventdalen, Svalbard, Dec. 1989	Oak 3rd shelf	
53	Svalbard reindeer	<i>Rangifer tarandus platyrhynchus</i>	Mammalia Eutheria Artiodactyla Cervidae	Hyoid bones	In or near Adventdalen, Svalbard, Dec. 1989	Bates	
54	Svalbard reindeer, mature adult	<i>Rangifer tarandus platyrhynchus</i>	Mammalia Eutheria Artiodactyla Cervidae	Calcaneus (ankle), phalange (toe) & tarsal bones, 2 molar, 2 premolar teeth, roots closed, crowns worn	Found in dump near Longyearbyen, Svalbard; May, 1992	Bates	
55	Svalbard reindeer	<i>Rangifer tarandus platyrhynchus</i>	Mammalia Eutheria Artiodactyla Cervidae	Guard hairs and underfur, summer	In or near Adventdalen, Svalbard, July 1990	Oak 2nd shelf	
559	Semi-domesticated reindeer	<i>Rangifer tarandus</i>	Mammalia Eutheria Artiodactyla Cervidae	White guard hairs and underfur on prepared belly skin	Northern Norway, 1990s	Oak 2nd shelf

378	Large mature bovid ? cattle	? <i>Bos taurus</i>	Mammalia Eutheria Artiodactyla Bovidae	3 small leg bones		Bates	
77	Mature adult ?Texas longhorn cattle	<i>Bos taurus</i>	Mammalia Eutheria Artiodactyla Bovidae	2 cervical vertebrae edges chewed by ?rodents to reveal internal cancellous bone	Found Arizona USA	Ungulate Box Glass storage D	
78	Domestic cattle adult	<i>Bos taurus</i>	Mammalia Eutheria Artiodactyla Bovidae	Astragalus (hind leg hock) cut into 4 slices to show internal structure	Yorkshire 1990	2 Glass display A4; 2 Bates	
79	Domestic cattle young adult	<i>Bos taurus</i>	Mammalia Eutheria Artiodactyla Bovidae	Part of left upper jaw showing molar & premolar teeth + roots		Glass storage D Ungulates	
80	Young domestic cattle	<i>Bos taurus</i>	Mammalia Eutheria Artiodactyla Bovidae	Hornless skull, nasal region broken		Glass Display C1	
81	Domestic cattle mature adult	<i>Bos taurus</i>	Mammalia Eutheria Artiodactyla Bovidae	Intact & broken molar teeth + roots	Shows complex internal structure of molars	Bates	
83	? Hanu or jeju Korean cattle	<i>Bos taurus</i>	Mammalia Eutheria Artiodactyla Bovidae	Cattle horn carved as crested bird	Made in Korean, bought Hong Kong 1983	Glass display C1	
84	? Hanu or jeju Korean cattle	<i>Bos taurus</i>	Mammalia Eutheria Artiodactyla Bovidae	Cattle horn carved as perforated turtle	Made in Korean, bought Hong Kong 1983	Bates	
394	Mature bovid (? domestic) or cervid	?	Mammalia Eutheria Artiodactyla	Long bones, sacrum with extensive rodent chew marks	Wytham Wood, Oxfordshire, England	Glass storage D Ungulate box	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
86	Great whale	<i>Balaenoptera</i>	Mammalia Eutheria Cetacea	Vertebra centrum with broken transverse processes	Found on beach NE USA Oct. 1976	Displayed in ground floor foyer	
400	Great whale	<i>Balaenoptera</i>	Mammalia Eutheria Cetacea	fragment vertebra polished to show bone structure	Hvalfjordur, Iceland July 1985	Glass display C2 largest, other Glass storage A4	
460	? Minke whale	<i>Balaenoptera acutorostrata</i>	Mammalia Eutheria Cetacea	Lumbar vertebra and right scapula	From skeleton found buried in sand dunes with all flesh rotted away and bone edges gnawed on S. shore of Moray Firth, Scotland, April 2020	Displayed in ground floor foyer	
87	Long-finned pilot whale	<i>Globicephala (melaena) melas</i>	Mammalia Eutheria Cetacea	Right mandible with teeth & some skin; desiccated dorsal fin and tip of tail, showing nerves and blood vessels	Stranded from The Wash onto marsh, S. Lincolnshire, England, 6th Nov. 1982	Glass display C2 L lower jaw & tail; Glass display A3 fin	
88	Large dolphin ?Pilot whale	? <i>Globicephala (melaena) melas</i>	Mammalia Eutheria Cetacea	Atlas + some cervical, thoracic, lumbar & tail vertebrae in anatomic order	E coast Mass. USA Dec 1976	Glass storage A	
89	Bottlenosed dolphin	<i>Tursiops truncatus</i>	Mammalia Eutheria Cetacea	Skull, teeth, ear ossicles (<i>in situ</i> & separated), 3 cervical, 2 thoracic, 1 lumbar vertebrae + 4 intervertebral disks	Collected by Sea Mammal research Unit at Cambridge	Glass display C2 skull and jaws, teeth, ear ossicles, other vertebrae Glass storage A Maine mammal box	
90	White-sided dolphin ♂ BM 166 kg	<i>Lagenorhynchus acutus</i>	Mammalia Eutheria Cetacea	Skull, lower jaws, ear bulla, some teeth, 7 cervical, 2 thoracic & 7 lumbar vertebrae, rib	Collected by Sea Mammal Research Unit, Cambridge, early 1985	Glass display C2: skull and jaws, 7 cervical and 2 thoracic vertebrae; Glass storage A Mammal box	
91	Fin whale	<i>Balaenoptera physalus</i>	Mammalia Eutheria Cetacea	Tympanic ear bulla	SW Iceland, July 1985	Glass display C2 skull and jaws	
92	Large whale ? Orca or baleen whale		Mammalia Eutheria Cetacea	Carved figure made from rib, ht. 22 cm, mass 730 g	Western Canada 1990s	Glass storage A	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
93	Porpoise ♂ BM 43 kg	<i>Phocoena phocoena</i>	Mammalia Eutheria Cetacea	Skull, some vertebrae	W. North Sea, collected by SMRU 1 April 1985	Glass storage A	
94	Narwhal adult ♂	<i>Monodon monoceros</i>	Mammalia Eutheria Cetacea	11 sawn fragments of enlarged incisor tooth, 1 with pulp cavity	Gift from Dr Malcolm A. Ramsay (1949-2000) Saskatoon, Sask. Canada	Glass Display C2 3 fragments; Bates 8 fragments	
95	Florida manatee large ♂	<i>Trichechus manatus</i>	Mammalia Eutheria Sirenia	Ear ossicles, L & R pair	Florida Fish & Wildlife Conservation Commission 2/2/2002	3 ossicles in Glass display A4, other Bates	
96	Grey or Common seal	<i>Halichoerus grypus</i> or <i>Phoca vitulina</i>	Mammalia Eutheria Pinnipedia	Sacrum, pelvis, both femurs, L scapula, axis vertebra; some chewed by rodents etc.	Found on beach UK	Glass storage A	
525	Grey or Common seal	<i>Phoca vitulina</i> or <i>Halichoerus grypus</i>	Mammalia Eutheria Pinnipedia	Model made of skin with fur from adult seal	Bought near Bergen, Norway August 1959	Glass display C2	
97	Grey Seal BM c. 200 kg	<i>Halichoerus grypus</i>	Mammalia Eutheria Pinnipedia	Skull & lower jaws + teeth, some loose; Rt. scapula, forelimb & hindlimb with some skin	Norfolk Coast collected by SMRU Cambs, 20 Sept. 1983	Glass display C2 skull and rt jaw; other Glass storage A	
98	Common (Harbour) Seal	<i>Phoca vitulina</i>	Mammalia Eutheria Pinnipedia	Skull & R jaw	Blakeney Point, Norfolk, 11 Oct. 1988	Glass display C2 skull and rt jaw	
99	Common (Harbour) Seal	<i>Phoca vitulina</i>	Mammalia Eutheria Pinnipedia	Lower jaws only		Bates	
100	Common (Harbour) Seal ♂ BM 42.5 kg	<i>Phoca vitulina</i>	Mammalia Eutheria Pinnipedia	Lower jaws only	NE coast England 1 April 1985	Bates	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
101	Antarctic fur seal juv. ♀ BM 27 kg	<i>Arctocephalus gazella</i>	Mammalia Eutheria Pinnipedia	L. half of skull, lower jaw + L scapula, L fore and hind limbs	Collected by Sea Mammal Research Unit Cambs 14 March 1994	Glass display C2 half skull & jaw; other Glass storage A	
102	Walrus	<i>Odobenus rosmarus</i>	Mammalia Eutheria Pinnipedia	Awl with scrimshaw and metal screw made from enlarged canine, mass 257 g	Canadian arctic	Glass display C2	
103	Pipistrelle bat ♀, BM c. 5 g	<i>Pipistrellus pipistrellus</i>	Mammalia Eutheria Chiroptera	Skull (braincase damaged), lower jaw, loose teeth, 2 ribs, 4 long bones	England	Bates	
104	? Pipistrelle bat	<i>Pipistrellus pipistrellus</i>	Mammalia Eutheria Chiroptera	Dried spread intact body & wings	England	Glass display D2	
530	Cave mouse-eared bat, 16 juveniles of various sizes/ages	<i>Myotis velifer incautus</i>	Mammalia Eutheria Chiroptera	Intact bodies preserved in formalin	Lost Colony Cave near Aetna, Barber County, Kansas, USA collected 13 July 1953 by J.W. Twente	Glass storage D in glass jar	
539	Cave mouse-eared bat, 15 adults	<i>Myotis velifer</i>	Mammalia Eutheria Chiroptera	Intact bodies preserved in formalin	Schwartz Cave, Comanche County, Kansas, USA collected October 1952 by J.W. Twente	Glass storage D	
105	Little brown bat	<i>Myotis lucifugus</i>	Mammalia Eutheria Chiroptera	Dried spread intact body & wings	Found 4717 Chester Avenue, Philadelphia Pa USA. 7 May 1979	Bates	
106	Little brown bat adult ♂	<i>Myotis lucifugus</i>	Mammalia Eutheria Chiroptera	2 Dried intact bodies & folded wings	Carter Cave State Park, Ky, USA. 5 April 1953	Bates	
107	Hedgehog adult ♂	<i>Erinaceus europaeus</i>	Mammalia Eutheria Eulipotyphla	Skull, lower jaw + complete skeleton	Milton Keynes, S. England 1 August 1987	Bates	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
108	Hedgehog young adult ♀ BM 648 g	<i>Erinaceus europaeus</i>	Mammalia Eutheria Eulipotyphla	Skull, lower jaw, all cervical vertebrae, skeleton with L/R bones identified	Milton Keynes, S. England May 1984	Skull & jaws Glass display D2, other Bates	
109	Hedgehog adult ♂	<i>Erinaceus europaeus</i>	Mammalia Eutheria Eulipotyphla	Skull, lower jaw + disarticulated skeleton	Milton Keynes, S. England June 1984	Bates	
110	Hedgehog adult ♂	<i>Erinaceus europaeus</i>	Mammalia Eutheria Eulipotyphla	Skull, lower jaw + disarticulated skeleton	Iffley Oxford 2013	Bates	
406	Eurasian common shrew	<i>Sorex araneus</i>	Mammalia Eutheria Eulipotyphla	3 skulls, lower jaw + part disarticulated skeleton	S. England, early 1980s	Bates	
465	Eurasian common shrew, adult BM 7 g	<i>Sorex araneus</i>	Mammalia Eutheria Eulipotyphla	mummified intact body	Found freshly dead, Boar's Hill, Oxford, 5 June 2022	Bates	
554	Eurasian common shrew adult, probably ♂	<i>Sorex araneus</i>	Mammalia Eutheria Eulipotyphla		Found recently dead from large wound and with burying beetles on path through garden southwest of Tubney House, Oxfordshire on 21 August 2025	Bates	
407	Eurasian pigmy shrew	<i>Sorex minutus</i>	Mammalia Eutheria Eulipotyphla	1 skulls, lower jaw + part disarticulated skeleton	S. England early 1980s	Bates	
111	European mole adult BM c. 100 g	<i>Talpa europaea</i>	Mammalia Eutheria Eulipotyphla	Skull & disarticulated skeleton	d 1993 Cambridgeshire	Bates	
112	European mole adult	<i>Talpa europaea</i>	Mammalia Eutheria Eulipotyphla	Skull & disarticulated skeleton	d 1993 Cambridgeshire	Skull & jaws, both humerus Glass display D2, other Bates	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
113	European mole adult	<i>Talpa europaea</i>	Mammalia Eutheria Eulipotyphla	Skull & disarticulated skeleton, braincase damaged	d 1993 Cambridgeshire	Bates	
114	Eastern (common) mole, adult ♂ and ♀	<i>Scalopus aquaticus</i>	Mammalia Eutheria Eulipotyphla	2 Stuffed skins with head, paws, tail	Near Ann Arbor, Mich. USA June 1953	Bates	
115	Eastern (common) mole adult ♀	<i>Scalopus aquaticus</i>	Mammalia Eutheria Eulipotyphla	Stuffed skin with head, paws, tail	Near Ann Arbor, Mich. USA; 25 Aug. 1952	Bates	
409	Mole embryo with placenta	? <i>Scalopus aquaticus</i>	Mammalia Eutheria Eulipotyphla	Intact body preserved in formalin in bottle	Eastern USA	Bates	
116	Nine-banded armadillo	<i>Dasypus novemcinctus</i>	Mammalia Eutheria Xenarthra	Lower foreleg & hind leg; bones & claws <i>in situ</i> ; one foreleg with skin and claws	Costa Rica 1974	Oak Shelf 3	
117	Nine-banded armadillo	<i>Dasypus novemcinctus</i>	Mammalia Eutheria Xenarthra	Dorsal carapace with tail and part of R hind leg and one foreleg	Costa Rica 1974	Glass display D2: skin and attachments and lower fore and hind legs with claws	
405	Sunda pangolin	<i>Manis javanica</i>	Mammalia Eutheria Pholidotamorpha	tongue (preserved in formalin in bottle)	Malaysia, Sept. 1976	Bates	
118	Pig-tailed macaque monkey	<i>Macaca nemestrina</i>	Mammalia Eutheria Primates	Complete skeleton, skull+ lower jaw mature adult ♂ perfect condition, many bones labelled	Regent's Park zoo London Nov 1984	Oak top shelf skull and jaws	
119	Pig-tailed macaque monkey old ♀	<i>Macaca nemestrina</i>	Mammalia Eutheria Primates	Complete skeleton, skull+lower jaw	Regent's Park zoo London Nov 1987 perfect condition	Glass storage A Primate box	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
120	Pig-tailed macaque 8 y old ♂ BM 15.7 kg	<i>Macaca nemestrina</i>	Mammalia Eutheria Primates	Skull+lower jaw	Regent's Park zoo London, Nov 1984 perfect condition	Oak top shelf skull and jaws	
121	Pig-tailed macaque 8 y old ♂ BM 14.5 kg	<i>Macaca nemestrina</i>	Mammalia Eutheria Primates	Skull+lower jaw	Regent's Park zoo London Nov 1984 perfect condition	Glass display D3 skull and jaws	
122	Crab-eating macaque (<i>Cynomolgus</i>) ♂ 10 y BM 5.3 kg	<i>Macaca fascicularis</i>	Mammalia Eutheria Primates	Skull & lower jaw, intact used for dental research	Royal College Surgeons, Downe, Kent 1986	Glass storage A Primate box	
123	Crab-eating macaque (<i>Cynomolgus</i>) ♂ 13 y BM 8.93 kg	<i>Macaca fascicularis</i>	Mammalia Eutheria Primates	Skull & lower jaw, used for dental research (teeth worn or missing) + 3 cervical vertebrae	Royal College Surgeons, Downe, Kent 1986	Glass storage A Primate box	
124	Crab-eating macaque (<i>Cynomolgus</i>), elderly ♂ 22 y BM 6.3 kg	<i>Macaca fascicularis</i>	Mammalia Eutheria Primates	Skull & lower jaw, used for dental research	Royal College Surgeons, Downe, Kent 1986	Glass storage A Primate box	
125	Crab-eating macaque (<i>Cynomolgus</i>), mature adult ♂	<i>Macaca fascicularis</i>	Mammalia Eutheria Primates	Skull & lower jaw, 1st molars extracted for dental research	Royal College Surgeons, Downe, Kent 1986	Glass storage A Primate box	
126	Crab-eating macaque (<i>Cynomolgus</i>), mature adult ♀	<i>Macaca fascicularis</i>	Mammalia Eutheria Primates	Skull & lower jaw, intact, used for dental research	Royal College Surgeons, Downe, Kent 1986	Glass storage A Primate box	
127	Crab-eating macaque (<i>Cynomolgus</i>), mature adult ♀	<i>Macaca fascicularis</i>	Mammalia Eutheria Primates	Skull & lower jaw + atlas vertebra, loose teeth, used for dental research	Royal College Surgeons, Downe, Kent 1986	Glass storage A Primate box	
128	Crab-eating macaque (<i>Cynomolgus</i>), mature adult ♂	<i>Macaca fascicularis</i>	Mammalia Eutheria Primates	Skull & lower jaw, loose teeth, used for dental research	Royal College Surgeons, Downe, Kent 1986	Glass storage A Primate box	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
129	Crab-eating macaques (Cynomolgus) adult ♀, BM 1-5 kg	<i>Macaca fascicularis</i>	Mammalia Eutheria Primates	9 skulls & lower jaw, some teeth loose, some atlas vertebrae, used for dental research	Royal College Surgeons, Downe, Kent 1986	Glass storage A Primate box	
130	Crab-eating macaques (Cynomolgus) adult ♂, BM 4-7.7 kg	<i>Macaca fascicularis</i>	Mammalia Eutheria Primates	4 skulls & jaw, some teeth loose, some atlas vertebrae, used for dental research	Royal College Surgeons, Downe, Kent 1986	Glass storage A Primate box	
162	Crab-eating macaque (Cynomolgus)	<i>Macaca fascicularis</i>	Mammalia Eutheria Primates	Misc limb bones and pelvis	Royal College Surgeons, Downe, Kent 1986	Glass storage A Primate box	
163	Japanese macaque adult ♂	<i>Macaca fuscata</i>	Mammalia Eutheria Primates	Os penis	Royal College Surgeons, Downe, Kent 1986	Os penis Oak top shelf	
164	Common marmoset adult ♂ BM 309 g	<i>Callithrix jacchus</i>	Mammalia Eutheria Primates	Skull & lower jaw, all teeth <i>in situ</i>	Laboratory bred Open University 7 Oct 1982	Bates	
165	Common marmoset neonate	<i>Callithrix jacchus</i>	Mammalia Eutheria Primates	Skull & lower jaw	Laboratory bred Open University 1980s	Bates	
130	American beaver large ♂	<i>Castor canadensis</i>	Mammalia Eutheria Rodentia	Skull + lower jaw	Nr Minneapolis MN, USA 18 April 1961	Glass display D3 skull and jaws	
131	Toothmarks in various patterns	<i>Castor canadensis</i>	Mammalia Eutheria Rodentia	2 trunks of small trees felled by American beaver	Algonquin Provincial Park, Ontario, Canada; April 1975	Glass display D3 silver birch, other Glass storage D	
132	? Muskrat	<i>Ondatra zibethicus</i>	Mammalia Eutheria Rodentia	26 incisor teeth ?mostly from lower jaw, set in silver necklace	Western USA, 1970s	Glass display B1	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
133	Lowland spotted Paca mature adult ?♂	<i>Cuniculus paca</i>	Mammalia Eutheria Rodentia	Skull & lower jaw	Costa Rica 1970s	Glass display D3: Lower Jaws with 1 incisor <i>in situ</i> , 1 extracted; other Glass storage D Ungulate box	
134	Lowland spotted Paca, young adult ♀ BM 4.65 kg, 5.5% fat	<i>Cuniculus paca</i>	Mammalia Eutheria Rodentia	Skull & lower jaw (molar eruption incomplete), complete skeleton	Costa Rica, d. Dec. 1974	Glass storage D Ungulate box	
379	Large histricomorph		Mammalia Eutheria Rodentia	Rt. scapula		Bates	
135	African Porcupine	<i>?africae australis or cristata</i>	Mammalia Eutheria Rodentia	Trimmed large quills in broken artefact	Africa	Glass display B1	
136	Cape Porcupine	<i>Hystrix africae australis</i>	Mammalia Eutheria Rodentia	22 Quills, various sizes, mostly intact	South Africa	? Glass storage D	
454	Cape Porcupine, probably mature adult	<i>Hystrix africae australis</i>	Mammalia Eutheria Rodentia	3 long intact quills	East or Central Africa c. 1980s; donated by Richard Vernon	Oak lower shelf	
516	North American porcupine	<i>Erethizon dorsatum</i>	Mammalia Eutheria Rodentia	At least 20 quills of various length and thickness; 1 claw	Michigan, USA	Glass display B4	
469	Coypu (nutria) adult ♀ BM 4.5 kg	<i>Myocastor coypus</i>	Mammalia Eutheria Rodentia	Skull (braincase damaged), lower jaw, incisors & molars intact	Norwich, UK 1985; culled feral	Glass display D1 Skull and jaws;	
137	Coypu (nutria) mature adult	<i>Myocastor coypus</i>	Mammalia Eutheria Rodentia	Skull, lower jaw, other skeleton with lumbar vertebrae + last ribs and Sacrum + pelvis in anatomic order	Culled from feral population in Norfolk, UK Oct. 1983	Glass display D3 Skull and jaws; other Glass storage D Ungulate box	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
138	Coypu (nutria) young adult	<i>Myocastor coypus</i>	Mammalia Eutheria Rodentia	Skull (braincase damaged), lower jaw, back molars erupting, other disarticulated skeleton	Culled from feral population in Norfolk, UK Oct. 1983.	Glass storage D Ungulate box	
139	Coypu (nutria) adult	<i>Myocastor coypus</i>	Mammalia Eutheria Rodentia	Skull (braincase damaged), lower jaw, incisors & molars intact	Norwich, UK 1985; culled feral	Glass storage D Ungulate box	
162	Coypu (nutria) adult ♀ BM 4.5 kg	<i>Myocastor coypus</i>	Mammalia Eutheria Rodentia	Skull (braincase damaged), lower jaw, incisors & molars intact	Norwich, UK 1985; culled feral	Bates	
140	Coypu (nutria) adult adult ♀ BM 4.6 kg 6.5% fat	<i>Myocastor coypus</i>	Mammalia Eutheria Rodentia	Skull (braincase damaged), lower jaw, incisors & molars intact + some vertebrae, fibula	Norwich, UK; culled feral 1 May 1985	Bates	
141	Mara very thin young adult ♂ BM 4.85 kg	<i>Dolichotis patagonium</i>	Mammalia Eutheria Rodentia	Nearly complete skeleton, major bones labelled, skull & lower jaw, teeth taped <i>in situ</i>	Whipsnade zoo, Bedfordshire, 18 Feb 1982	Glass storage D Ungulate box	
142	Mara ♀ BM 7.56 kg 4.4% adipose tissue	<i>Dolichotis patagonium</i>	Mammalia Eutheria Rodentia	Nearly complete skeleton, skull & jaws, teeth taped <i>in situ</i>	Whipsnade zoo, Bedfordshire, 17 Nov 1983	Glass storage D Ungulate box	
143	? Agouti; adult, subadult	? <i>Dasyprocta</i>	Mammalia Eutheria Rodentia	5 lower jaw + loose incisor teeth	Costa Rica, found in wild 1974	Bates	
144	Guinea-pig young adult ♂ BM c. 1 kg	<i>Cavia porcellus</i>	Mammalia Eutheria Rodentia	Skull, lower jaw some loose teeth, humerus, hind legs, sacrum & pelvis, fur	Lab bred 1982	Bates	
145	Guinea-pig young adult ♂	<i>Cavia porcellus</i>	Mammalia Eutheria Rodentia	Skull + lower jaw all teeth intact, with hind legs, sacrum & pelvis	Lab bred 1982	Bates	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
146	Guinea-pig adult ♀	<i>Cavia porcellus</i>	Mammalia Eutheria Rodentia	Skull, lower jaw & disarticulated skeleton	Lab bred; died 1986 aged 4 y	Bates	
147	Yellow-toothed cavy (cuis) adult ♀, BM 340 g	<i>Galea musteloides</i>	Mammalia Eutheria Rodentia	Skull +lower jaw, all teeth, with hind legs, sacrum & pelvis	Gift from Dr Barbara J. Weir Oct 1982	Bates	
529	Yellow-toothed cavy (cuis) 2 adults	<i>Galea musteloides</i>	Mammalia Eutheria Rodentia	Mummified intact bodies with fur and claws	Gift from Dr Barbara J. Weir Oct 1982	Glass storage D	
148	Eastern grey squirrel	<i>Sciurus carolinensis</i>	Mammalia Eutheria Rodentia	Skull & lower jaws + teeth	Iffley, Oxford June 2010	Bates	
149	Eastern grey squirrel	<i>Sciurus carolinensis</i>	Mammalia Eutheria Rodentia	Skull & lower jaw, most of skeleton	Iffley, Oxford, June 2008	Bates	
458	Eastern grey squirrel	<i>Sciurus carolinensis</i>	Mammalia Eutheria Rodentia	Skin with face, 3 paws and tail	found dead on Kennington-Radley road, Oxfordshire 18 July 2021	Oak bottom shelf	
444	Eastern grey squirrel	<i>Sciurus carolinensis</i>	Mammalia Eutheria Rodentia	fur and tail skin vertebrae		Bates	
150	Eastern grey squirrel	<i>Sciurus carolinensis</i>	Mammalia Eutheria Rodentia	Skull & lower jaw, most of skeleton rt. limbs & girdles separate, vertebrae in anatomic order	Wytham Wood, Oxfordshire, England 1983	Bates	
372	Eastern grey squirrel	<i>Sciurus carolinensis</i>	Mammalia Eutheria Rodentia	Pelvic girdle, 2 halves		Bates	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
383	Eastern grey squirrel, 44 adults, mostly mature	<i>Sciurus carolinensis</i>	Mammalia Eutheria Rodentia	44 Skulls with lower jaws & teeth, some loose	Wytham Wood, Oxfordshire, England, Nov. 1984 labelled NOT, WD, WX, Wi & WOB+ number, number alone. Kunner	2 skulls+ jaws C4; 1 skull to D4; others: Basement storage Cupboard 2, upper shelf, 3 boxes	
151	Fox squirrel ♂	<i>Sciurus niger</i>	Mammalia Eutheria Rodentia	Stuffed skin with head, paws, tail	Ann Arbor Mich. USA 17 April 1951	Oak Rt drawer	
152	Fox squirrel ♂	<i>Sciurus niger</i>	Mammalia Eutheria Rodentia	Stuffed skin with head, paws, tail & skull missing	Nr. Ann Arbor Mich. USA January 1953	Oak Rt drawer	
153	Fox squirrel	<i>Sciurus niger</i>	Mammalia Eutheria Rodentia	Stuffed skin with head, paws, tail	Michigan USA 1950s	Oak Rt drawer	
154	Laboratory white rat BM c. 0.5 kg	<i>Rattus norvegicus domestica</i>	Mammalia Eutheria Rodentia	Pelvis, sacrum, lumbar vertebrae & hind leg <i>in situ</i> , lower jaw	Milton Keynes, S. England 1982	Bates	
450	European brown rat	<i>Rattus norvegicus</i>	Mammalia Eutheria Rodentia	Skull, cranium damaged, all teeth & palate	Found in suburban Oxford 2020	Bates	
155	House mouse	<i>Mus musculus</i>	Mammalia Eutheria Rodentia	Skull cranium damaged + lower jaw, all teeth	Philadelphia before 1975, 4 corked glass tubes	Glass display D4	
449	House mouse	<i>Mus musculus</i>	Mammalia Eutheria Rodentia	Skeleton, skull cranium damaged +	Oxford January 2020	Bates	
408	Wild UK murid rodent	<i>Apodemus sylvaticus, ?+ Myodes glareolus</i>	Mammalia Eutheria Rodentia	Misc. bones & skulls	S. England early 1980s	Bates	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
156	Deer mouse	<i>Peromyscus maniculatus</i>	Mammalia Eutheria Rodentia	Skull braincase damaged + lower jaw, all teeth	E. USA before 1975	Bates, in glass tube	
157	White-footed mouse adult ♂	<i>Peromyscus leucopus</i>	Mammalia Eutheria Rodentia	2 Stuffed skins with head, paws, tail	Ann Arbor Michigan USA 20 Jan. 1946	Bates	
561	Mongolian gerbil or jird	<i>Meriones unguiculatus</i>	Mammalia Eutheria Rodentia	Intact body with skin preserved in formalin	Died Philadelphia, PA January 1974	Glass storage D	
158	Hare BM c. 3.5 kg	<i>Lepus europaeus</i> (? <i>timidus scoticus</i>)	Mammalia Eutheria Lagomorpha	Skull, lower jaw & disarticulated skeleton	Scotland, 1982	Bates	
159	European rabbit	<i>Oryctolagus cuniculus</i>	Mammalia Eutheria Lagomorpha	Skull & 1 lower jaw	Found dead Millton Keynes, S. England	Bates	
160	European rabbit	<i>Oryctolagus cuniculus</i>	Mammalia Eutheria Lagomorpha	Skull	Found dead Milton Keynes, S. England	Bates	
161	European rabbit, young adult	<i>Oryctolagus cuniculus</i>	Mammalia Eutheria Lagomorpha	Skeleton, incomplete	Scotland 1976	Bates	
468	European rabbit, young adult, very lean, BM c. 1 kg	<i>Oryctolagus cuniculus</i>	Mammalia Eutheria Carnivora	Bag 1: Skull & jaws packed separately, axial skeleton girdles+long bones complete and in fixed anatomic order. Bag 2 dried, salted skin+fur with paws and ears	Found dead (cause undetermined) 08.30 16/7/23 on path along E side of railway Kennington, Oxford	Glass display D3 skull; skin Oak bottom shelf; other Glass storage D Ungulate box	
166	Polar bear adult ♂, BM 407 kg	<i>Ursus</i> (= <i>Thalarctos</i>) <i>maritimus</i>	Mammalia Eutheria Carnivora Ursidae	Skull, tongue bones & left humerus	Arviat (Eskimo Point), Nunavut, Canada; 4 Nov 1988	Glass display A2 skull and humerus	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
167	Polar bear ♀ cub, c. 0.8 y old, BM 58 kg	<i>Ursus (= Thalarctos) maritimus</i>	Mammalia Eutheria Carnivora Ursidae	Skull & lower jaw, tongue bones, fragments	Arviat (Eskimo Point), Nunavut, Canada Nov 1988	Glass Storage C Carnivore Box	
168	Polar bear adult & subadult ♂s	<i>Ursus (= Thalarctos) maritimus</i>	Mammalia Eutheria Carnivora Ursidae	4 x os penis various sizes and shapes	Arviat (Eskimo Point), Nunavut, Canada; Nov 1988	Oak top shelf	
169	Polar bear	<i>Ursus (= Thalarctos) maritimus</i>	Mammalia Eutheria Carnivora Ursidae	10 knee caps from 4 adults & subadults, 1 cub	Arviat (Eskimo Point), Nunavut, Canada; Nov 1988	Walnut upper, shelf 2	
422	Polar bear	<i>Ursus (= Thalarctos) maritimus</i>	Mammalia Eutheria Carnivora Ursidae	Guard hairs & underfur from 1 adult & 4 subadults/cubs	Arviat (Eskimo Point), Nunavut, Canada; Nov 1988	Oak bottom shelf, other Bates	
170	Brown bear (grizzly), large adult ♂	<i>Ursus arctos</i>	Mammalia Eutheria Carnivora Ursidae	Skull+lower jaw, os penis, knee cap, 2 metacarpals or tarsals, dried salted skin of face with snout and ears, bag of loose hairs from head (paler) and back (dark)	Saskatoon, Canada; died 29 April 1989	Skull+ jaw Glass display A2; skin bottom shelf, os penis top shelf Oak; loose hair Bates; other bones, Glass Storage C	
171	Brown bear juv. ♂ BM 88 kg	<i>Ursus arctos</i>	Mammalia Eutheria Carnivora Ursidae	Skeleton, nearly complete; small piece of skin+hair from flank; loose body hair.	Whipsnade zoo, Bedfordshire, Sept. 1982	? Skin + fur Bates B1 Glass Storage C	
172	Brown bear juv. ♀, aged 20 months, BM 80 kg	<i>Ursus arctos</i>	Mammalia Eutheria Carnivora Ursidae	Pelvis, vertebrae, vertebral discs, limbs, claws, rib	Whipsnade zoo, Bedfordshire d. 14 Sept 1982	Glass Storage C	
174	Black bear adult ♂ wild	<i>Ursus americanus</i>	Mammalia Eutheria Carnivora Ursidae	Skull & lower jaw + first 4 cervical vertebrae in anatomic order; both front paws, intact & dried; 3 pieces of dried, salted skin with fur	Shot through left jugal arch and braincase July 1975, near University of Michigan Biological Research Institute, 20 km S. of Mackinaw City, Mich., USA	Glass display A2 forepaws; Glass Storage C Carnivore Box skull, jaws, cervical vertebrae, skin	
423	Large carnivore	? <i>Ursidae</i>	Mammalia Eutheria Carnivora Ursidae	os penis with dried skin & soft tissues		Bates	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
175	Timber wolf, young adult, probably ♂	<i>Canis lupus</i>	Mammalia Eutheria Carnivora Canidae	Skull & lower jaw, all teeth & complete skeleton	Whipsnade zoo, Bedfordshire, 1982	Glass display B2	
176	Timber wolf elderly ♀ 8+ y, BM 39 kg, 6.4% fat	<i>Canis lupus</i>	Mammalia Eutheria Carnivora Canidae	Skull, lower jaw, tongue bones, worn canines, perforated abscess on R. mandible molar	Whipsnade zoo, Bedfordshire, 25 Jan. 1989	Lower jaws, Rt with abscesses Oak Shelf 2; Skull and tongue bones Glass Storage C	
177	Timber wolf immature	<i>Canis lupus</i>	Mammalia Eutheria Carnivora Canidae	Lower jaws with all molar teeth, some packed separately	Whipsnade zoo, Bedfordshire	Bates	
555	Ethiopian wolf ♀	<i>Canis simensis</i>	Mammalia Eutheria Carnivora Canidae	Skull in perspex box	Loan from Professor Claudio Sillero	Glass display B2	
178	Common red fox	<i>Vulpes vulpes</i>	Mammalia Eutheria Carnivora Canidae	Tail vertebrae <i>in situ</i> with skin	Milton Keynes, England	Glass Storage C Carnivore box	
179	Common red fox adult ♂, BM 8 kg	<i>Vulpes vulpes</i>	Mammalia Eutheria Carnivora Canidae	Skull & lower jaw with all teeth, and os penis	Milton Keynes, S. England, 25 Jan 1989	Skull & jaws Glass B2; os penis Oak top shelf; other Glass Storage C

524	Yellow-footed (= Brazilian giant) tortoise adult ♂	<i>Chelonoidis (= Geochelone) denticulatus</i>	Reptilia Testudinata	In formalin-filled fitted glass box, with plastron sawn off to show visceral	In captivity 8 y died 1982	Basement cupboard 2 lower shelf	
309	Red-footed tortoise	<i>Chelonoidis (= Geochelone) carbonarius</i>	Reptilia Testudinata	Shell from hatched egg	Laid July 1985, hatched 23 Sept 1985	Bates	
311	Red-footed tortoise small ♀	<i>Chelonoidis (= Geochelone) carbonarius</i>	Reptilia Testudinata	Fragmented shell, limbs & pectoral girdle, skull, jaws & neck vertebrae packed separately	Captive, failed to thrive 1980s. Probably discarded pet. Failed to integrated into established group of conspecifics	Basement cupboard 4 upper shelf	
312	Red-footed tortoise, immature, still growing	<i>Chelonoidis (= Geochelone) carbonarius</i>	Reptilia Testudinata	Shell intact (bone & keratin), skull with atlas vertebra attached + lower jaw, limb bones	Captive, failed to thrive late 1970s	Basement cupboard 4 lower shelf	
382	Red-footed tortoise, mature adult ♂, BM 3.72 kg	<i>Chelonoidis (= Geochelone) carbonarius</i>	Reptilia Testudinata	Shell intact (bone & keratin), skull + lower jaw, girdles & limb bones labelled	Captive from 1975, sexually active for 40+ y, died accidentally June 2018 aged 45-50	Oak top shelf carapace with some bones in bag inside; other Glass Storage B	
479	Red-footed tortoise small ♀	<i>Chelonoidis (= Geochelone) carbonarius</i>	Reptilia Testudinata	Body preserved in formalin with plastron sawn off	USA Research Collection of unknown origin, 1970s	Basement cupboard 5 Bucket with red lid 2	
496	Red-footed tortoise small ♀	<i>Chelonoidis (= Geochelone) carbonarius</i>	Reptilia Testudinata	Body preserved in formalin. Hole drilled in anal scute & cross carved on 2nd spinal scute of carapace	USA Research Collection of unknown origin, 1970s	Basement cupboard 5 Bucket with red lid 2	
497	Red-footed tortoise large ♀	<i>Chelonoidis (= Geochelone) carbonarius</i>	Reptilia Testudinata	Body preserved in formalin with plastron sawn off in 3 sections, central one missing	USA Research Collection of unknown origin, 1970s	Basement cupboard 3 Large bucket with white lid	
313	Red-eared slider turtle large mature ♀	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	Shell (bone & keratin), skull, skeleton	Found Christ Church Meadow, Oxford 23/3/2012, BM 2.18 kg, probably discarded pet that lived feral for many years; failed to integrated into established group of captive conspecifics in outdoor pen in captivity d. 21/3/14, 1.96 kg.	Glass display D1 shell; other Glass storage B Cuora box	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
314	Red-eared slider turtle mature ♀	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	Shell intact (carapace badly deformed, plastron normal) + disarticulated skeleton	Pet, fed FW fish from Derbyshire, received from Dick Stephens Univ. Leicester, July 1990, d. April 1991 after several years inert and refusing food ? prolonged iodine deficiency	Shell Oak 2nd shelf, other bones	
315	Red-eared slider turtle ♀	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	Shell intact, disarticulated skeleton	Found in Grand Union Canal at Milton Keynes, S. England May 1993	Basement cupboard 1, bottom shelf, <i>Trachemys</i> Box	
316	Red-eared slider turtle, large adult ♀	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	Disarticulated skeleton, shell fragmented from drying	Southern Michigan, USA; died after many years in captivity March 1976	Basement cupboard 1, bottom shelf, <i>Trachemys</i> Box	
317	Red-eared slider turtle ♀	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	Shell complete but fragmenting, with ectopic bone around healed abscess or wound on plastron; disarticulated skeleton, skull and long bones.	In captivity Southern Michigan, USA before 1970; died 1990.	Basement cupboard 1, bottom shelf, <i>Trachemys</i> Box	
318	Red-eared slider turtle♀	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	Dried skulls and limbs with skin & claws	Southern Michigan, USA; died after many years in captivity March 1976	Basement cupboard 1, bottom shelf, <i>Trachemys</i> Box	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
319	Red-eared slider turtle adults	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	5 plastrons, bone & keratin, showing diverse individual markings	Southern Michigan, USA; died after many years in captivity March 1976	Basement cupboard 1, bottom shelf, <i>Trachemys</i> Box	
472	Red-eared slider turtle ♀, aged at least 50 y, had laid eggs; BM at death 2.4 kg	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	Shell intact bone+keratin, skull+ jaw, girdles, all major & some minor long bones. No sign of arthritis etc.	Captive since before 1975, mostly outside with conspecifics 314-318 & 473, fed worms, snails, fish & leaves April-Sept. only; died 30 Jan. 2023 from natural causes during prolonged frost.	Basement cupboard 1, bottom shelf, <i>Trachemys</i> Box	
473	Red-eared slider turtle ♀, aged at least 50 y, had laid eggs; BM at death 1.83 kg;	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	Shell fragmented, bone+keratin, skull+ jaw, girdles, all major & some minor long bones	Captive since before 1975, mostly outside with conspecifics 314-318 & 472, fed worms, snails, fish & leaves April-Sept, only; died 30 Jan. 2023 from natural causes during prolonged frost.	Basement cupboard 1, bottom shelf, <i>Trachemys</i> Box	
434	Red-eared slider turtle juv.	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	mummified intact body keratinous scutes in situ	d. in captivity 16 April 1993	Basement cupboard 1, bottom shelf, <i>Trachemys</i> Box	
435	Red-eared slider turtle juv.	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	mummified intact body keratinous scutes in situ		Basement cupboard 1, bottom shelf, <i>Trachemys</i> Box	
542	Red-eared slider turtle adult ♀ BM 930 g	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	mummified intact body keratinous scutes in situ	In captivity from c. 1979 with conspecifics; d. 14 Sept. 1997 after months of semi-paralysis.	Basement cupboard 1, bottom shelf, <i>Trachemys</i> Box	
561	Red-eared slider turtle ♂ aged at least 48 y.	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	Shell + skull, jaws, girdles, limb bones	In captivity from c. 1979 with conspecifics, mostly outside in natural sunlight, max BM 925 g; d. 14 May 2026 after months of refusing food	Basement cupboard 1, bottom shelf, <i>Trachemys</i> Box	
320	Colombian slider turtle, adult ♀	<i>Trachemys callirostris</i>	Reptilia Testudinata	Shell + skull, jaws, girdles, limb bones packed separately	Central America 1976, d. 1991	Basement cupboard 1 top shelf	
321	Coastal plain cooter turtle	<i>Trachemys (= Pseudemys) concinna floridana</i>	Reptilia Testudinata	Shell intact, disarticulated skeleton	Gift from Dr. Anders G. J. Rhodin 1976, d. Milton Keynes 1984	Basement cupboard 1 top shelf	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
322	Red-eared slider turtle adults	<i>Trachemys</i> (= <i>Pseudemys</i>) spp.	Reptilia Testudinata	Shell fragments (bone & keratin), disarticulated skeletons, skulls	In captivity southern Michigan, USA before 1970; died 1982	Basement cupboard 1 <i>Trachemys</i> Box	
323	Greek tortoise, large adult ♀	<i>Testudo graeca</i>	Reptilia Testudinata	Carapace cut from plastron (bone & keratin), skull, lower jaw, girdles & major limb bones	Whipsnade zoo Feb 1982	Basement cupboard 4 back of lower shelf	
324	Greek tortoise, large adult ♀ BM c. 2.5 kg	<i>Testudo graeca</i>	Reptilia Testudinata	Shell (carapace+plastron), skull, lower jaw, skeleton partly in situ		Basement cupboard 4 back of lower shelf	
325	Greek tortoise, large adult ♀	<i>Testudo graeca</i>	Reptilia Testudinata	Shell (carapace+plastron) intact, skull, lower jaw, girdles & major limb bones	Died 21 June 1997	Basement cupboard 4 back of lower shelf	
377	Greek tortoise, adult ♀ max BM 1.81 kg	<i>Testudo graeca</i>	Reptilia Testudinata	Disarticulated skeleton	Sept 1986 d. after hibernation 17/3/88	Bates	
326	Greek tortoise, adult ♂ c. 80 y old, max BM 1.68 kg	<i>Testudo graeca</i>	Reptilia Testudinata	Skull+atlas vertebra+jaws intact & in situ; carapace & ant. plastron intact bone & keratin in situ, disarticulated post. plastron, vertebrae & limbs, left radius healed break	Adult life in S. England; d. during hibernation Oct 2017 -9 /3/18	Basement cupboard 4 back of upper shelf	
327	Greek tortoise, small ♀ probably growth stunted	<i>Testudo graeca</i>	Reptilia Testudinata	Shell (carapace+plastron bone & keratin)		Basement cupboard 4 Lower shelf	
488	Greek tortoise, young adult ♀	<i>Testudo graeca</i>	Reptilia Testudinata	Intact body preserved in formalin	USA Research Collection of unknown origin, 1970s	Basement cupboard 3 Large bucket with white lid	
489	Greek tortoise, mature adult ♂	<i>Testudo graeca</i>	Reptilia Testudinata	Intact body preserved in formalin	USA Research Collection of unknown origin, 1970s	Basement cupboard 3 Large bucket with white lid	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
490	Greek tortoise, mature adult ♀	<i>Testudo graeca</i>	Reptilia Testudinata	Body preserved in formalin, plastron sawn off	USA Research Collection of unknown origin, 1970s	Basement cupboard 3 Large bucket with white lid	
328	Hermann's tortoise, large adult ♀	<i>Testudo hermanni</i>	Reptilia Testudinata	Shell (carapace+plastron bone & keratin)		Basement cupboard 3 top shelf	
329	Hermann's tortoise, large adult	<i>Testudo hermanni</i>	Reptilia Testudinata	Skull, loose keratin scutes, disarticulated skeleton		Basement cupboard 3 top shelf	
491	Hermann's tortoise, large adult ♂	<i>Testudo hermanni</i>	Reptilia Testudinata	Body preserved in formalin, plastron sawn off	USA Research Collection of unknown origin, 1970s	Basement cupboard 3 Large bucket with white lid	
492	Hermann's tortoise, small adult ♂	<i>Testudo hermanni</i>	Reptilia Testudinata	Body preserved in formalin, plastron sawn off	USA Research Collection of unknown origin, 1970s	Basement cupboard 3 Large bucket with white lid	
493	Bell's hinge-back tortoise	<i>Kinixys belliana</i>	Reptilia Testudinata	Whole body preserved in formalin	USA Research Collection of unknown origin, 1970s	Basement cupboard 3 Large bucket with white lid	
330	Russian Tortoise	<i>Testudo (=Agrionemys) horsfieldii</i>	Reptilia Testudinata	Shell (intact), skull, jaws, girdles & major limb bones	Captive-bred pet, BM 240 g, d. 6 March 2012 after hibernation	Basement cupboard 4 lower shelf	
331	♀ black marsh turtle = smiling terrapin = Siamese temple turtle	<i>Siebenrockiella crassicollis</i>	Reptilia Testudinata	Fragmented shell, limbs & pectoral girdle, skull, jaws & neck vertebrae packed separately	Pet 1975-84	Basement cupboard 4 lower shelf	
332	♀ black marsh turtle = smiling terrapin = Siamese temple turtle	<i>Siebenrockiella crassicollis</i>	Reptilia Testudinata	Shell (bone & keratin) & skull + jaws intact, almost complete skeleton packed in shell	Pet from 1975; died 17 Feb 1991 BM 470 g	Basement cupboard 4 lower shelf	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
433	♀ black marsh turtle = smiling terrapin = Siamese temple turtle	<i>Siebenrockiella crassicollis</i>	Reptilia Testudinata	mummified intact body keratinous scutes <i>in situ</i>	Pet from 1975; 20 March 1983	Glass storage B Clear plastic box with blue lid	
333	Side-necked Amazon yellow-spotted river turtle ♀, BM 600 g	<i>Podocnemis unifilis</i>	Reptilia Testudinata	Shell, skull & jaws + neck vertebrae in anatomic order, girdles+ limbs packed separately	Detroit Zoo 1975, d. 13 March 1979, BM 910 g	Basement cupboard 4 lower shelf	
547	Side-necked Amazon yellow-spotted river turtle hatchling	<i>Podocnemis unifilis</i>	Reptilia Testudinata	Intact body preserved in formalin then desiccated	Probably captive bred; died April 1976	Bates	
486	Side-necked Amazon yellow-spotted river turtle ♀ small adult	<i>Podocnemis unifilis</i>	Reptilia Testudinata	Body preserved in formalin, plastron sawn off	USA Research Collection of unknown origin, 1970s	Basement cupboard 3 Large bucket with white lid	
487	Big-headed Amazon river turtle, 2 small adults	<i>Peltocephalus dumerilianus</i>	Reptilia Testudinata	Body preserved in formalin, plastron sawn off	Research Collection of unknown origin within USA	Basement cupboard 3 Large bucket with white lid	
495	Black-lined toad-head turtle	<i>Mesoclemmys (Batrachemys) raniceps</i>	Reptilia Testudinata	Body preserved in formalin, plastron sawn off	Research Collection of unknown origin within USA	Bucket with red lid 1 Glass storage B	
510	Black-lined toad-head turtle ♀ small adult	<i>Mesoclemmys (Batrachemys) raniceps</i>	Reptilia Testudinata	Whole body preserved in formalin, plastron sawn off	Research Collection of unknown origin within USA	Bucket with red lid 1 Glass storage B	
414	African helmeted side-necked marsh turtle, juv.	<i>Pelomedusa subrufa</i>	Reptilia Testudinata	mummified intact body, plastron cut, viscera visible	Research Collection of unknown origin within USA	Glass storage B Clear plastic box with blue lid	
416	S.E. Asian snail-eating turtle	<i>Malayemys</i> sp.	Reptilia Testudinata	mummified intact body	Research Collection of unknown origin within USA	Glass storage B Clear plastic box with blue lid	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
418	Red-eared slider terrapin, juv.	<i>Trachemys (= Pseudemys) scripta elegans</i>	Reptilia Testudinata	mummified intact body	Research Collection of unknown origin within USA	Glass storage B Clear plastic box with blue lid	
419	Ornate box turtle immature	<i>Terrapene ornata</i>	Reptilia Testudinata	mummified intact body, plastron cut, viscera visible	Research Collection of unknown origin within USA	Glass storage B Clear plastic box with blue lid	
421	Giant Asian pond turtle small adult ♀	<i>Heosemyda (Geoemyda) grandis</i>	Reptilia Testudinata	mummified intact body keratinous scutes abscised	Research Collection of unknown origin within USA	Basement cupboard 4 upper shelf	
427	Giant Asian pond turtle small adult ♀	<i>Heosemyda (Geoemyda) grandis</i>	Reptilia Testudinata	mummified intact body keratinous scutes abscised	Research Collection of unknown origin within USA	Basement cupboard 4 top shelf	
335	American alligator	<i>Alligator mississippiensis</i>	Reptilia Crocodyliformes	Skull (braincase damaged), jaws with joints fused, teeth and some keratin. Prepared by scraping.	Florida 1960s, probably shot	Glass display D4	
456	Nile crocodile juvenile probaly several years old	<i>Crocodylus niloticus</i>	Reptilia Crocodyliformes	Skull, maxilla and nasal only (orbits, foramina, cranium & occiput absent), L. jaws, with dermal bones & teeth	Shot Zambezi River nr. Mongu, Western Province, Zambia, c. 1970; donated by Richard Vernon	Glass display A4	
336	Common chuckwalla mature adult BM 205 g	<i>Sauromalus ater (obesus)</i>	Reptiles Squamata	Disarticulated skeleton & skull	Arizona, USA Oct 1976; d. 18 July 1990	Bates	
337	Common chuckwalla 2 adults, 15+ y old, BM 285 g	<i>Sauromalus (obesus) ater</i>	Reptiles Squamata	Eviscerated mummified body with skin & skeleton <i>in situ</i>	Arizona Oct 1976; d. July 1990 large abdominal fat bodies	Bates	
515	Common chuckwalla 3 mature adults	<i>Sauromalus ater (obesus)</i>	Reptiles Squamata	Bodies preserved in formalin, one headless	USA Research Collection of unknown origin, 1970s	Basement cupboard 3 Clear plastic box with blue lid 5	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
338	Iguanid, ? Galapagos marine iguana	<i>Amblyrhynchus cristatus</i>	Reptiles Squamata	Skull (bone & some keratin) atlas vertebra	Gift from Alistair Ewing Nov 1989	Skull Glass display D4; vertebra Bates	
339	Spiny-tailed iguana, large adult	<i>Ctenosaura</i> spp.	Reptiles Squamata	Skull & jaws, vertebrae in anatomic order, other skeleton	Pet Milton Keynes 1989	Bates	
543	Spiny-tailed iguana, juvenile	? <i>Ctenosaura pectinata</i>	Reptiles Squamata	Intact body preserved in formalin	Probably Costa Rica	Glass display D3	
340	? Tegú lizard	? <i>Tupinambis</i>	Reptiles Squamata	Dentary bones & maxillae showing teeth fused to bones and Sheterodont dentition	S. America 1970s	1 pair Glass display D4, others Bates	
341	Adult large lizard	? Varanidae	Reptiles Squamata	Dried body with scales & claws fixed to bamboo frame	Indonesia 1976	Glass display B1	
342	Desert iguana, large adult, BM c. 90 g	<i>Dipsosaurus dorsalis</i>	Reptiles Squamata	Disarticulated skeleton, skull & jaws, mixed with some <i>Sauromalus</i> bones	Southwest Arizona, 1976; in captivity for research d. 1983	Bates	
343	Desert iguana	<i>Dipsosaurus dorsalis</i>	Reptiles Squamata	Eviscerated mummified adults with automised tails, skin & skeleton <i>in situ</i>	Southwest Arizona, USA 1976-1979; in captivity for research	Basement cupboard 2 lower shelf	
514	Desert iguana 12 mature adults	<i>Dipsosaurus dorsalis</i>	Reptiles Squamata	Intact body preserved in formalin	Southwest Arizona, USA 1976-7; in captivity for research, lived up to 8 y	Basement cupboard 3 Clear plastic box with blue lid 5	
528	Green iguana juv.	<i>Iguana iguana</i>	Reptiles Squamata	Intact body preserved in formalin	Costa Rica 1976	Glass display A4	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
344	Spiny lizard, ?western fence, adult ?♀	<i>Sceloporus ?occidentalis</i>	Reptiles Squamata	Dried intact body with scales	Southwest Arizona 1977	Glass display D4	
345	Spiny lizard, ?western fence lizard	<i>Sceloporus ?occidentalis</i>	Reptiles Squamata	Dried intact body	Died 17 Oct 1976	Bates	
544	Western fence lizard 5 adults	<i>Sceloporus occidentalis</i>	Reptiles Squamata	Bodies preserved in formalin, some with broken tails		Glass storage D	
346	Adult large lizard	? Teiidae, Varanidae or Iguanidae	Reptiles Squamata	Pelvis with fused sacral vertebrae		Glass storage D	
411	2 small gekkos	Gekkonidae	Reptiles Squamata	Intact bodies preserved in formalin in sealed jar	Kibale forest, Fort Portal Uganda 23 Oct 1974	Bates	
412	2 Leopard gekkos: ♂ BM 31 g aged 11.4 y; ♀ BM 35 g, aged 12.5 y	<i>Eublepharis macularius</i>	Reptiles Squamata	Intact bodies preserved in formalin in sealed jar	Bred in captivity, Penn. USA Jan. 1978, d. Milton Keynes 1989 & 1990	Glass display D4	
527	32 chameleons, including 6 adults, 26 juvs, some just hatched	Unknown, but all collected from grass at the same time and place	Reptiles Squamata	Intact bodies preserved in formalin in sealed jar	Collected from Kibale Forest, Fort Portal, Uganda on 23 October 1974	Glass storage B in glass jar	
467	Large lizard ? Asian water monitor	<i>Varanus salvator</i>	Reptiles Squamata	Lizard's back skin with spots and other markings prepared as purse	Produced in Thailand, bought Hong Kong 1980s	Oak 3rd shelf	
545	Common Eurasian viviparous lizard, probably ♀	<i>Zootoca (Lacerta) vivipara</i>	Reptiles Squamata	Intact body preserved in formalin	Southwest England 16 Aug. 1974	Glass storage B in glass jar	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
347	Royal (or ball) python, adult c. 5 m long, BM 28 kg	<i>Python regius</i>	Reptiles Squamata	Dried skin & scales, entire except for head; whole head with teeth, eyes and skin preserved in formalin	Found on Pongo Songo Island in River Sanaga, Douala-Edéa rainforest reserve, Cameroon; 1 Nov. 1974	Glass display D2 head in glass jar; Oak bottom Shelf skin folded	
349	Pentastomid (= Linguatulida) (Arthropoda, Crustacea) in <i>Python regius</i>	? <i>Armillifer armillatus</i>	Reptiles Squamata	Parasite found in body cavity preserved in tube	Edea rainforest, Cameroon; 1 Nov 1974	Glass display D2	
412	Tapeworm (Platyhelminthes, Cestoda) in <i>Python regius</i>	? <i>Bothridia sp.</i>	Reptiles Squamata	Parasite found in intestine preserved in tube	Edea rainforest, Cameroon; 1 Nov 1974	Glass display D2	
413	Ascaridoid Nematode worms in <i>Python regius</i>	? <i>Kalicephalus sp.</i>	Reptiles Squamata	Parasites found in stomach preserved in tube	Edea rainforest, Cameroon; 1 Nov 1974	Glass display D2	
348	? Garter snake	<i>Thamnophis</i> (Colubridae)	Reptiles Squamata	Sloughed skin, dorsal & ventral rectangular scales	USA	Oak bottom Shelf	
538	Ground snake	? <i>Sonora semiannulata</i> (Colubridae)	Reptiles Squamata	Intact body in preserved in formalin	Mid-western USA c. 1960s	Glass display D4	
560	? Grey rat snake (or other large N. American colubrid)	<i>Pantherophis (Elaphe) obsoleta</i> (Colubridae)	Reptiles Squamata	Skin from eyes to tip of tail 1.7 m long dried	Eastern or mid-western USA mid C20th	Oak bottom Shelf	
548	Timber or banded rattlesnake	<i>Crotalus horridus</i> (Viperidae)	Reptiles Squamata	Intact body in preserved in formalin	Eastern or mid-western USA first half C20th	Glass display D2	
350	African dwarf frog adult	<i>Hymenochirus spp.</i>	Amphibia Anura	Disarticulated skeleton & skull	pet, d. Iffley Oxford March 2015 aged 20+ y	Bates	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
351	South African clawed frog adult ♂	<i>Xenopus</i> spp.	Amphibia Anura	Disarticulated skeleton, hind legs & pelvis separated	pet, d. Iffley Oxford, 18 Oct 2012 aged 27+ y	Bates	
352	South African clawed frog adult	<i>Xenopus laevis</i>	Amphibia Anura	Disarticulated skeleton & skull	pet, d. Milton Keynes 1 May 1992 aged 7+ y	CHECK not found	
526	South African clawed frog adult ♀	<i>Xenopus laevis</i>	Amphibia Anura	Intact body, mummified by freeze drying for 12 y, then briefly in formalin	pet, fully grown by 1985, d. 10 Oct 2012 after refusing food for a month, aged 27+ y	Glass display D1	
540	South African clawed frog gravid ♀ with many immature eggs	<i>Xenopus laevis</i>	Amphibia Anura	Intact body, abdomen open, preserved in formalin	Feet badly injured May 2002, partly regenerated. Died 10 Nov 2007 aged 25+y after 2 weeks floating on its side. Never laid eggs.	Glass storage B CHECK	
410	Common toad, large adult	<i>Bufo bufo</i>	Amphibia Anura	Disarticulated skeleton & skull	found dead Oxford Botanic Gardens, 7 Aug 2001	Bates	
353	Common frog, 3 large adults	<i>Rana temporaria</i>	Amphibia Anura	Disarticulated skeletons	wild, d. naturally Iffley Oxford Feb. 2016	Bates	
354	Adult frog ?tropical, 19 mm long		Amphibia Anura	Mounted mummified body		Bates	
404	Common mudpuppy (salamander), adult	<i>Necturus maculosus</i>	Amphibia Urodela	Mounted skeleton with gills	E. USA ? N. Carolina before 1975	Glass display D4	
545	Sea lamprey small adult	<i>Petromyzon marinus</i>	'Jawless fish' Agnatha Cyclostomata	Intact body preserved in formalin	Great Lakes USA, mid C20th; ectoparasite living in freshwater and the sea; invaded the Great Lakes from St Lawrence River in early C20th, soon became abundant, reducing numbers of native fish.	Glass display D1	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
546	Silver lamprey adult	<i>Ichthyomyzon unicuspis</i>	'Jawless fish' Agnatha Cyclostomata	Intact body preserved in formalin	Great Lakes USA mid C20th; indigenous in central & eastern USA and S.E. Canada, now rare due to invasion of <i>P. marinus</i> . Ectoparasite, mostly in freshwater lakes and rivers	Glass display D1	
355	Alligator gar = tropical gar fish	<i>Atractosteus (Lepisosteus) tropicus</i>	'Bony fish' Actinopterygii Holostei	Stuffed whole fish, with dried skull, jaws & ganoid scales	Eastern Costa Rica	Glass display D4	
356	Longnose (needlenose) gar	<i>Lepisosteus osseus</i> (Holostei)	'Bony fish' Actinopterygii Holostei	Skull & jaws, pectoral fins dried intact	Eastern USA	Bates	
357	Scrawled cowfish or trunkfish	<i>Acanthostracion quadricornis</i>	'Bony fish' Osteichthyes Teleostomi	Dried whole fish	Costa Rica 1974	Bates	
358	Honeycomb cowfish or trunkfish	<i>Acanthostracion polygonius</i>	'Bony fish' Osteichthyes Teleostomi	Dried whole fish	Costa Rica Caribbean 1974	Glass display D4	
359	Clown fish	? <i>Amphiprion</i>	'Bony fish' Osteichthyes Teleostomi	Dried whole fish	? Captive bred	Bates	
360	? Rainbow Parrotfish	<i>Scarus guacamaia</i>	'Bony fish' Osteichthyes Teleostomi	Skull, jaws, vertebrae in anatomic order, pectoral & pelvic fins dried	Near St George's Bermuda, July 1979	Skull Glass display D3, vertebrae, ribs and dorsal fins Glass display D4	
531	Parrotfish, probably juvenile	? <i>Sparisoma</i> spp.	'Bony fish' Osteichthyes Teleostomi	Intact body preserved in formalin	Costa Rica 1974	Glass display D4	
532	Pufferfish ?Long-spine porcupinefish probably juvenile	? <i>Diodon holocanthus</i>	'Bony fish' Osteichthyes Teleostomi	Intact body preserved in formalin	Costa Rica, Guanacaste (Pacific) coast 1974	Glass display D4	

Item #	Common name, sex, age	Scientific name	Classification	Specimen	Source & date	LaMB Location	Items removed
361	Large, fast-swimming teleost ? tuna		'Bony fish' Osteichthyes Teleostomi	Caudal vertebra		Glass display D4	
362	Teleost		'Bony fish' Osteichthyes Teleostomi	Centrum of trunk vertebra		Bates	
363	Large, fast-swimming teleost		'Bony fish' Osteichthyes Teleostomi	Body and tail vertebrae, with spines or ribs loose & in situ	Near St George's Bermuda, July 1979	Bates
